

# PORNLAND

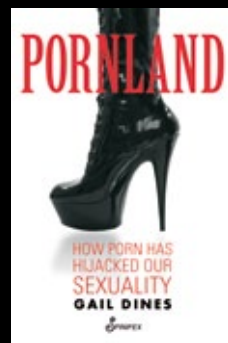

**A rare opportunity to hear one of the world's foremost authorities on the harms of pornography.**

At the forefront of the study of pornography and its effects, US author and researcher Gail Dines will talk about her new book *Pornland: How porn has hijacked our sexuality*. She argues that the spread of pornography has become a public health concern we can no longer ignore.

As porn culture has become absorbed into pop culture, and with average age of first exposure 11 years, a new wave of entrepreneurs are creating porn that is even more hard-core, violent, sexist and racist.
